

## GHOST ROTARY MINI UAS

### General

GHOST is a versatile and highly maneuverable rotary mini UAV system, uniquely designed to support urban warfare ISR missions.

The system is easy to operate and is suited for quick reaction deployment

### Main Features & Capabilities

- Operational Flexibility
- Silent Operation
- Automatic Vertical Takeoff and Landing
- Takeoff & Land in Difficult Terrain
- Day & Night Missions
- Urban Environment Operations
- Horizontal View
- LOS & NLOS Missions
- Simple to Deploy & Operate

# GHOST ROTARY MINI UAS

## Performance & Technical Data

MTOW -	4kg [9 lb]	
Length -	145 cm [4.76 ft]	106 cm [3.48 ft]*
Width -	75 cm [2.46 ft]	11 cm [0.36 ft]*
Endurance -	up to 30 Min	*Folded
Operational Speed -	0 - 35 kts
